PRANAV P

FLUTTER DEVELOPER

+91-7994996200 | pranavps962@gmail.com | LinkedIn | GitHub | Portfolio | Kerala, India

Professional Summary

Flutter Developer with 4 years of experience designing and shipping cross-platform mobile applications, from multi-vendor marketplaces to offline-first POS systems used across 20+ restaurant locations. Skilled in state management (GetX, Bloc, Provider, Riverpod), Clean Architecture and MVVM patterns, Firebase, and third-party API integrations including payment gateways and Google Maps. Comfortable owning a feature from architecture through to production release, with hands-on CI/CD and deployment experience that reduces friction between development and shipping.

Technical Skills

Languages & Frameworks: Dart, Flutter, Kotlin, Swift, Python

State Management: GetX, Bloc, Provider, Riverpod

Architecture Patterns: MVC, MVVM, Domain-Driven Design (DDD), Clean Architecture

UI/UX: Responsive UI Development, Figma, Adobe XD, Material Design, Cupertino Design

Database & Storage: Firebase Firestore, Hive, SQLite, Local Storage

APIs & Integrations: RESTful APIs, Google Maps API, Google Business Profile API, Payment Gateways (Stripe), Push Notifications, In-app Purchase

AI & Developer Productivity: ChatGPT, GitHub Copilot, Claude AI, Google Gemini, Cursor AI

Tools & Platforms: Git, GitHub, Firebase Suite, Google Cloud Platform

CI/CD & Release Management: GitHub Actions, Jenkins, Fastlane, Firebase App Distribution, App Store Connect, Google Play Console, Shorebird, Build Automation

Development Practices: Agile/Scrum, Code Review, Unit Testing, Performance Optimization, Version Control

Professional Experience

Release Engineer May 2026 – Present

Elixr Labs *Thiruvananthapuram, Kerala*

- Managed end-to-end mobile release lifecycle for Android and iOS, designing and maintaining CI/CD pipelines (Bamboo, GitHub Actions, Fastlane) to automate build, code signing, and deployment.
- Automated versioning and build configuration, and managed Firebase App Distribution, Play Console, and App Store Connect for beta testing and production releases.
- Collaborated with development, QA, and product teams to coordinate release schedules, troubleshoot build failures, and continuously improve release reliability.

Senior Software Developer (Flutter) December 2022 – May 2026

Ferns IT Solutions Pvt Ltd *Thiruvananthapuram, Kerala*

- Architected and delivered 8+ cross-platform mobile applications serving 5,000+ active users across multi-vendor food ordering, delivery management, and restaurant operations platforms.
- Developed customer-facing multi-vendor food ordering platform enabling users to browse 100+ restaurants, manage orders, and track deliveries in real-time, resulting in 30% increase in order completion rates.
- Built delivery agent application with optimized Google Maps API integration, reducing route calculation time by 45% and improving delivery efficiency through real-time notifications and order management.
- Engineered offline POS and Waiter application with local server architecture, enabling seamless dine-in order management with 100% uptime during internet outages. Implemented QR code-based device pairing for real-time order synchronization across 20+ restaurant locations.
- Designed and implemented table reservation system with real-time availability updates, reducing booking conflicts by 85% and improving customer satisfaction scores.
- Enhanced restaurant manager application by integrating Google Business Profile API for centralized order management, reducing order processing time by 50% and enabling receipt printing and real-time alerts.
- Optimized app performance through code refactoring and efficient state management, achieving 40% faster load times and reducing API response time from 2.5s to 1.2s.
- Collaborated with cross-functional teams of 8+ developers using Agile methodologies, participating in code reviews and maintaining 95%+ code coverage through unit testing.

Software Development Intern (Kotlin, Flutter) March 2022 – November 2022
RichkenMedia Pvt Ltd *Thiruvananthapuram, Kerala*

- Gained hands-on experience in mobile application development using Kotlin and Flutter frameworks.
- Participated in the development of a content streaming application, learning DDD architecture and Bloc state management pattern.
- Collaborated with senior developers to understand best practices in code structure and mobile app design patterns.

Fullstack Development Intern (Python) October 2021 – March 2022
Quest Innovative Solutions *Thiruvananthapuram, Kerala*

- Completed internship focused on full-stack web development using Python and related technologies.
- Learned fundamentals of frontend and backend integration while working on real-world projects.
- Gained exposure to software development lifecycle, version control, and collaborative development practices.

Key Projects & Achievements

Online Order Management System | *Flutter, Dart, GetX, Firebase, MVC, Rest API, Push Notifications*

- Designed centralized dashboard to manage website and mobile app orders in real time.
- Developed instant alert system for new incoming orders, improving response time.
- Reduced manual coordination between restaurant staff by 40% through workflow automation.

Multi-Vendor Food Ordering Platform | *Flutter, Dart, GetX, Firebase, MVC, Rest API*

- Developed comprehensive ecosystem including customer app, delivery agent app, and restaurant management system.
- Integrated Stripe payment gateway, processing 5,000+ transactions monthly with 99.9% success rate.
- Implemented real-time order tracking and push notifications, reducing customer support inquiries by 35%.

Offline POS & Waiter System | *Flutter, Dart, GetX, Hive, Local Networking*

- Built innovative offline-first architecture enabling restaurants to operate without internet dependency.
- Implemented local server on POS device with QR code-based waiter app pairing for instant order communication.
- Achieved 100% operational uptime across 10+ restaurant deployments with zero data loss incidents.

Education

Bachelor of Computer Applications 2018 – 2021
University of Kerala *Kerala, India*
